HARTFORD
FIRE INSURANCE OFFICE
July 22 1845

THE recent destructive fire in New York will of course excite solicitude in regard to its effect on the solvency of Insurance Companies in that city and the neighboring places. The Directors of the Hartford Fire Insurance Company are happy to assure their customers and the public, that they are prepared to adjust and pay at maturity all losses sustained by their office, from their surplus funds and current receipts without delay and without withdrawing their permanent investments. Their capital remains ample for the security of all who insure with them and they invite owners of desirable property to obtain Policies on favorable terms both at the Home Office and at their several Agencies. Their mode of transacting business which for 35 years past has secured the public confidence will remain unchanged.
By order of the Board of Directors,
JAMES G BOLLES, Sec'y

To the Hon Justices of the Supreme Judicial Court next to be holden at Bangor in and for the County of Penobscot on the fourth Tuesday of October next,

RESPECTFULLY represents Israel Washburn, Jr. of Orono in said county of Penobscot, that he is seized as tenant in common with other persons to him unknown, in fee simple and in possession of an undivided fifth part of a part of township numbered seven in the third range of townships lying east of the Penobscot River and north of the Lottery Lands, which part of said township is all of the same except what was set off to Mark L. Hill by Commissioners appointed by the District Court for the Eastern District, holden at Bangor in the said county whose proceedings were confirmed by said District Court at the October Term, A D 1841 and also except what was set off by said Commissioners for public uses—and the part of said township of which said Washburn is seized as tenant in common as aforesaid is bounded as follows, viz—Beginning at the south west corner of said township—thence running north or northerly on the west line thereof to the north westerly corner of said township—thence on the north line of said township to the lot set off and assigned by Zebulon Bradley and others, Commissioners, for the ministry—thence south or southerly on the west line of the last named lot to the south westerly corner of the same; thence east or easterly on the south line of said lot to the west line of land set off as afor said to Mark L. Hill—thence south or southerly by said Hill's west line to the north line of a lot set off by said Commissioners for the use of schools—thence west or westerly on said last mentioned north line to the north west line of said school lot, thence south or southerly to the southwest corner thereof—thence easterly to the southeast corner thereof; thence north or northerly to the north east corner thereof and the southerly line of land set off to said Hill, thence east or easterly on said Hill's line to the east line of said township—thence south or southerly to the south east corner of said township—thence west or westerly to the east line of a lot set off by said Commissioners for the first settled minister—thence following the lines of the last mentioned lot till they intersect the south line of said township—thence west or westerly to the place of beginning and your petitioner alleges that he cannot improve occupy and possess his said undivided fifth part of said described premises to any advantage while the same is a common and undivided as aforesaid but wholly loses the profits thereof—and that he is desirous of holding his said portion there of in severalty as a fee simple estate.

He therefore prays that after due notice to all parties interested in said premises you would order partition of said lands to be made and that proper Commissioners may be appointed to the end that his said portion as aforesaid may be set off to him to be held in severalty and as in duty bound will ever pray. Dr. S. O. Richardson's
CELEBRATED SHERRY WINE
BITTERS.

THE proprietor of this Medicine offers to the Public ... the result of an extensive ... and a thorough investigation of the laws which govern the human system
It cannot be denied by those who have become acquainted with the ... virtues of these Bitters that they possess a preeminence over all others now in use for the diseases which they profess to cure
It is a well known fact that most diseases arise from a deranged state of the Stomach and Bowels in youthful adult and declining life

"*The stomach crammed with every dish*
A tomb of roast and boiled and flesh and fish
Where bile and wind and phlegm and acid jar
And all the man is one intestine war"

The extensive sympathies which subsist between these and every other part of the living body ... foundation of nervous diseases of all kinds—Irregular Appetite Languor Drowsiness Wandering Pains Headache, Lowness of Spirits &c
And these in their turn give birth to Dyspepsia Palpitation of the Heart Shortness of Breath Jaundice Piles Fevers Inflammatory Humors Coughs and a host of diseases which embitter life and poison all sources of enjoyment
The distinguished character of these Bitters is most striking in their operation being more or less powerful according to the violence of the disease. When used in appropriate quantity in cases of slight derangement of the stomach and Bowels caused by cost veness or a slight bilious affection ... where nature needs assistance to prevent more serious consequences they will be scarcely felt
On the contrary in obstinate cases they frequently operate more powerfully ... or three evacuations daily until the circulation fluid becomes purified. This accomplished they act on the system in connexion with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April, 1836 directed the Land Agent of said Commonwealth to give notice to sundry proprietors of lands in the State of Maine who were required by a condition contained in the original deeds of conveyance from the Commonwealth to place a certain number of families on their respective tracts and requiring them to furnish evidence of the fulfilment of said condition, or pay the sum of $30 for each family deficient on the first day of June 1836, or the lands would be declared forfeited
Pursuant to said Resolve notice was soon after given to all the proprietors of lands subject to said condition most of whom have complied therewith, and removed the incumbrance. The proprietors however, of the following townships or tracts have not responded to the notice neither have they (so far as is known at this office) settled for or complied with said condition viz. In the County of Cumberland—a gore of land lying between the towns of Raymond and Otisfield formerly conveyed to Samuel Phillips
County of Franklin—Township Letter D conveyed to Jonathan Gardner, and number two and number three in the third range
County of Oxford—Letter A No 1 now the town of Riley and A No 3 now the town of Newry
County of Somerset—A half town in No 1st Range north of Bingham's Kennebec purchase granted to the Trustees of Sandwich Academy ...
County of Penobscot—Township No 3 on the west side of Penobscot River granted to the Maine Literary and Theological Institution now the town of Argyle. South half of township No 3 6th range North of the Waldo patent granted to C. Drowne and others and the north half of township No 6 9th range granted to the Trustees of Warren Academy
County of Washington—Townships No3 1st range west of Passamaquoddy River granted to S ... Hinckley. No 1 4th range ... granted to Williams College now called Vinceboro ... half township on the Eastern boundary ... granted to the Trustees of Limerick Academy now called New Limerick
The undersigned is required by a late resolve of the Legislature of Massachusetts passed the 11th day of March last again to give notice to delinquent proprietors and to take such measures as he may deem to be necessary to recover to the Commonwealth the possession of any of the above named tracts ... from such private owners as shall have failed on the first day of December next of complying with the requisition of the Resolve of the first day of April 1836.

STOP THIEF.
$20 REWARD.

ON Friday the 29th of August, the subscribers let a horse and wagon to one JOHN FAVOR a hand in one of the mills here, to go to Bangor under a promise that he would return them on Sunday the 31st. Ten days have elapsed, and nothing has been heard of Favor or the horse and carriage, and it is feared that he has decamped with said horse and carriage, via Houlton for New Brunswick and from whence he formerly came
The horse was a gelding 10 years old and of a chesnut color—was breachy—and had the hair for some inches chafed off his neck, by a yoke with which he had been hampered
The wagon was of the common style, nearly new, having on thorough braces painted a deep dark yellow, with black stripes. The harness was a common one, with plated mountings, and brass D's in the saddle
Favor is a man of common stature, dark complexion, with a defect in eyes and plausible in address about from 23 to 25 years of age. He is undoubtedly a rogue, and ran off with the establishment. Whoever will return said horse wagon and harness shall receive the above reward and a reasonable proportion for either, with ten dollars more for the thief. LENRY B JORDAN & CO

Patent Water Wheel.

THE undersigned, Agents for the manufacture and sale of VALENTINE'S PATENT WATER WHEELS are prepared with *patterns* for casting all the different sizes and forms of wheels required for the various conditions in which they are used
The superiority of these Wheels may now be considered as fully established, the evidence of which may be seen in the fact that hundreds of them have been put into successful operation in this State within two years past and also in the fact that a diploma was awarded for them by the managers of the Mechanics Fair in Boston last year and further that many careful experiments were made by scientific Engineers at Lowell last season the results of which as stated in a communication by one of them, prove conclusively that the Valentine Wheel is at least 10 per cent stronger than any of the Tub or Reacting Wheels now in general use
The undersigned are prepared to furnish the above Wheels together with all other kinds of mill work and machinery used in this section of the country upon the most reasonable terms

Cheap Cash STOVE WAREHOUSE.

Nos. 80 and 82 Main-Street, BANGOR.

The largest, cheapest and best assortment of Stoves of all descriptions ever offered in this city.

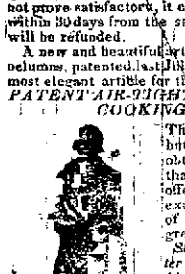

NATHANIEL JOHNSON, as above, has just rec'd and has on hand and for sale, cheaper than ever before offered, the best assortment of Air-Tight Cooking and other STOVES, in the State of Maine. He challenges competition from any quarter, in the styles, qualities, cheapness, economy and convenience of his stoves. All in want are advised to give him a call, and thus save money, and enhance their comforts and convenience.

Among his extensive collection of Stoves may be found the following patterns and styles.

The Maine Farmer Cook Stove, which stands unsurpassed—is "the best ever made"—was cast expressly for me, made of the best of stock, is one quarter heavier than usual, and if any one sold does not prove satisfactory, it can be returned any time within 30 days from the sale, and the price paid will be refunded.

A new and beautiful article of Parlor Stove with columns, patented last July. This is decidedly the most elegant article for the parlor ever offered.

PATENT AIR-TIGHT ELEVATED OVEN COOKING STOVES.

This Stove has been on sale but a short time, still it has obtained a greater notoriety than any other Stove ever offered, for its superiority and excellence in every branch of cookery, as well as its great economy in fuel.

Stewart's Summer and Winter Air-Tight Cooking Stove. Also Wager's Air Tight Cook Stove, warranted to give perfect satisfaction.

Likewise the PREMIUM AIR-TIGHT with cast iron tops, and bottoms—lining inside—will keep its color and shape, &c. The Railway Stove—Hathaway Stove—Hampton Stove—Norton Furnace Stove—Lowers—Union Stove—Shepherd's Hot-Air, and 40 other kinds, of all descriptions.

N. J. respectfully invites the citizens of Bangor and the adjoining country to call and examine his immense collection of Stoves, promising to sell them as cheap as they can be bought at any other establishment in the State. Especially would He caution his country friends against placing too implicit confidence in those itinerant venders of Stoves to whom they must not only pay a round price for their Stoves, but they are also taxed for horse hire and other heavy expenses in addition.

Please call at 80 and 82 Main-st Bangor.

Orders for Copper, Sheet Iron, or Tin Work gratefully received and promptly executed.

LORAINE'S PILLS:

OR

VALUABLE UNIVERSAL MEDICINE, CURATIVE,

OF THE

French College of Health, in Paris.

THESE Pills are now acknowledged by thousands, who take them daily, to be the only medicine that fairly takes the Banner from all others. This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced. They cause no pain, or uneasiness, of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the readers is respectfully called to the following important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine,—still greater, and more remarkable cures daily happen.

SWELLING OF THE BODY FROM HEAD TO FOOT CURED!!

BOSTON, (Mass.) March 10, 1844.

SIR:—About a year since, I was taken severely ill, with a swelling of the body from head to foot, so that I was entirely helpless. The doctor advised me to go to the Hospital, for he said he did not understand my case. The persuasion of friends induced me to try Dr. Loraine's Vegetable Pills, which in a few days, produced a great change in my system, by increasing the natural discharges, causing in appetite, relieving the pain, removing the swelling, and giving me strength, and a perfect cure.

A SEVERE PAIN IN BOTH SIDES, CURED!

LOWELL, (Mass) April 20, 1844.

Sir—For the last few months I have been afflicted with a severe pain in both sides, at times so hard that I could scarcely get my breath. * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking 1 dose of Dr Loraine's Pills.

J. BROOKS.

A HACKING COUGH CONSTANTLY ANNOYED ME!

BOSTON, (Mass) June 1, 1844.

Sir:—In February last, I took a sudden cold, after which, a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miserable, as every body told me that I was in a consumption. Since I have taken Loraine's Pills, and now every body tells me, that I am well;—I feel as well as ever I did.

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of Newport, County of Penobscot and State of Maine, is now offered for sale in such parts as purchasers may desire. This water power combines three essential advantages, an unfailing supply of water, the pond covering a large portion of the town, and raised with little expense or damage; freedom from all risk as to freshets, and it is never frozen. It is situated in the heart of a rapidly increasing and thriving agricultural county, and is only twenty-three miles distant from the city of Bangor.

There is now situated on this outlet, a Tannery an Iron Foundery and Machine Shop, and a Saw Mill and a Grist Mill.

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery, and also of several acres of land adjoining or of portions of the same to be used for various manufacturing purposes.

It is believed that the advantages here offered are rarely equalled and never excelled; and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures.

SANDS' SARSAPARILLA,

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

IF there be a pleasure on earth which superior beings cannot enjoy, and one which they might almost envy men the possession of, it is the power of relieving pain. How consoling, then, is the consciousness of having been the instrument of rescuing thousands from misery to those who possess it. What an amount of suffering has been relieved, and what a still greater amount of suffering can be prevented, by the use of Sand's Sarsaparilla! The unfortunate victim of hereditary disease, with swollen glands, contracted sinews and bones half carious, has been restored to health and vigor.—The scrofulous patient, covered with ulcers, loathsome to himself and to his attendants, has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation.

The following interesting case must commend itself to the careful attention of all similarly afflicted:

Sands's Celebrated Sarsaparilla!

I speak experimentally when I say that this medicine is far more effectual in the cure of chronic or acute rheumatism than any other preparation I have ever tested. Having endured extreme suffering at times within the last five years from repeated attacks of inflammatory or acute Rheumatism, I have recently used Sands's Sarsaparilla with the happiest success, my health is now better than it has been for many months past, my appetite is good, and my strength is rapidly returning. I attribute this healthful change entirely to the use of this potent medicine. Feeling a deep sympathy with those who are afflicted with this most tormenting and painful complaint, I cannot refrain from earnestly recommending to such the use of this valuable specific. Having the most entire confidence in the medicine and skill of Dr Sands, I was induced thereby to try the effects of their Sarsaparilla, and I take pleasure in adding my testimony to that of many others commendatory of its invaluable properties unknown to and unsolicited by the Messrs. Sands.

CHARLES DYER, Jr.,

Druggist and Apothecary, 40 & 42 Westminster st. Providence, R. I.

Feb. 15, 1845.

NANTUCKET, Mass. 8th, mo 31, 1844.

A. B. & D. SANDS—Esteemed Friends: Although an entire stranger to you, I do not feel at liberty any longer to defer the acknowledgment of a great indebtedness to you for your invaluable Sarsaparilla, which has been the means, under a kind Providence, of my inexpressible relief. I am also urged to this acknowledgment by reflecting, that by my humble testimony, hundreds of sufferers, miserable as I have been, may be induced to try this remedy, and experience a cure as speedy and happy as mine. For ten years I have been suffering under a Scrofulous affection of the Bones in my head, and during a great part of this time, my pain and suffering were so severe, that but for a reliance on the Great Disposer of events, I should have desired, and much preferred death itself. At different periods during my sickness, twenty pieces of bone have been taken from my head in various ways, besides all my upper teeth, and the entire upper jaw, rendering the mastication of food quite impossible. After expending about six hundred dollars for medical aid, I had recourse to your justly celebrated Sarsaparilla, and within the last three months the use of twelve bottles has, with the most beneficial operation, completely arrested the disease; the healing process is going forward, and I am rapidly approaching to a perfect cure. Being extremely anxious that others laboring under similar complaints may have the advantage of my experience, I shall be most happy any time to communicate to them or to you such further and more minute particulars as may be desired. Please accept assurance of my great obligation and regard.

BENJ. M. HUSSEY.

NANTUCKET, 8th Mo. 31, 1844.

A. B. & D. SANDS—Respected Friends: Benjamin M. Hussey is a person of perfect respectability; his statement in relation to the wonderful effects of your Sarsaparilla upon him, may be implicitly relied upon. His case here is considered a very extraordinary one, and the cure altogether is such as to entitle the Sarsaparilla to be ranked as a great blessing to the human family, and we consider it as such.

Yours with due regard,

WILLIAM MITCHELL.

Cashier of the Pacific Bank, Nantucket.

FALES MEDICINE.

FALES' Cathartic and Vegetable Purgative Lozenges, are the best and decidedly the most popular article, not only for adults but for children of all countries and climates, and in every condition of life. They are strictly vegetable; with a taste inexpressibly delightful; they cause no pain in the operation but on the contrary feelings of pleasure, cleansing the stomach and bowels more perfectly than any other purgative. Their magic like operation surprises the most eminent physicians, and they are rapidly taking the place of all other purgative compounds. Every traveler should carry them, every family should keep them, and every man, woman and child should take them.

FALES' WORM LOZENGES

Are a sure remedy, and children love them, they act like a charm in removing the symptoms, starting in sleep, grating the teeth, paleness about the mouth and nose, sickness at stomach, precarious appetite, swelled bowels and general fever; the child falls in a quiet sleep, the worms are stupefied and expelled in every instance as far as heard from the patient is entirely cured.

FALES' COUGH LOZENGES

For coughs, colds, bronchitis, incipient consumption, whooping cough and croup, the most happy effect is obtained in a few moments, the symptoms disappear and the disease is at once broken up. A single trial is sufficient to satisfy the most skeptical.

FALES' DYSENTERY LOZENGES.

Cures dysentery, diarrhœa and all bowel complaints of adults or children. Pay particular attention to the directions which accompany each box and they are not known to fail. Price 25 cents.

FALES' CAMPHOR LOZENGES.

For common and sick headache; also mania, epilepsy, melancholy, hysteria, St Vitus Dance and all other cases of languor and oppression of the vital powers, they are perfectly safe for women or children in all conditions.

FALES' CYPRIAN HAIR TONIC.

Is now so extensively known that comment is useless. We can say, however, among thousands who have purchased it in this and other countries, none have complained, but on the contrary expressed their wonder and admiration on beholding its effects.

CLEAR OUT YOUR RATS.

THE GREAT NORTHERN REMEDY.

N. H. DOWNS'

VEGETABLE BALSAMIC ELIXIR,

FOR Colds, Coughs, Consumption, Spitting of Blood, Whooping Cough, Asthma, Croup, Bronchitis and all diseases of the Lungs.

This medicine is purely vegetable—the result not of mere theory and speculation, but of much study and research during years of debility and suffering; and the inventor having succeeded in curing himself, and having tested its efficacy on thousands of individuals in New England and the western States, feels great confidence in recommending it to the public as a safe and efficient remedy. It operates most conspicuously in removing all morbid irritation from the Lungs and Pulmonary Organs, keeps the cough loose, promotes expectoration, and induces a degree of quiet in the system peculiarly grateful to the patient after having experienced so many days and nights of restless inquietude and suffering. Hear the testimony of those who have been benefitted by it. Hon. Bates Turner, late Judge of the Supreme Court of Vermont says, "I have been acquainted with the medicine called Downs Elixir, for seven years past, and from its effect upon myself and in cases where I have witnessed its effect upon others, I consider it one of the most fortunate inventions ever made." Robert W. Woodruff, Esq of Summerville, N. J., after certifying to its good effect upon himself in a case of long standing internal weakness, and coughs, concludes thus;—"This certificate is given with the hope that it may direct the attention of all suffering from colds, coughs, inward weakness, &c. to this invaluable medicine."

Dr. Gustavus Hills, of Ashtabula, Ohio, says, "I was induced to try the Balsamic Elixir, and having used one bottle with decided advantage, I followed it with another which I hesitate not to say have had a more pleasing and permanent effect than all other cough medicines I ever used." William C. Perkins of Somersworth, Great Falls, N. H. says, "I have used N. H. Downs' Vegetable Balsamic Elixir for phthisic and found immediate relief, and do consider it the best medicine ever used by me for that complaint." B. Baily, Esq. of Canton, N. Y. concludes his certificate thus, "I have no hesitation in saying to the public that the said Balsamic Elixir was the only means of my recovery, and I do most cheerfully and earnestly recommend it to the public." Chapin Nelson of Waterford, Me., in a letter to the general agents, dated, March 10, 1845, says, "The agent of Downs' Elixir was here last month and left one and a half dozen bottles with me; not knowing its value I did not take much; have sold all the left, and finding it one of the most valuable medicines I ever had in my store to sell, want you to send on another lot immediately by stage."

THE AFFLICTED IN DANGER

SALUTARY CAUTION.

READ! READ!!

THE well established and well earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Fever, Head Aches, Indigestion, Dyspepsia, Dysentery, Colic, Female Complaints, &c. &c. has excited the cupidity and envy of the proprietors of other medicines; and since their admirable qualities cannot be impugned, has aroused against them the antagonist efforts of a crew who seek to pass off other medicines, by the reputation of Wright's Indian Vegetable Pills.

Beware of all attempts to palm off any (so called) specifics by means of pacious wording and deceptive titles. "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than an agreeable exterior to combat with disease. We shall not attempt to analyze the composition of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so—nor is it necessary. It is, however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills, and that, whoever purchases them under this supposition is wofully deceived. This caution is positively necessary, since the title (partly, the qualities and partly, the combination of ingredients, &c. are all those which formed the distinctive and original character of the true medicine.

Remember, buy none but "WRIGHT'S Indian Vegetable Pills," which are protected by a patent. These have attained an almost incredible sale and circulation, owing altogether to their own intrinsic merits. The public will pass its own judgment upon any attempt to snatch the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe their continuance of the enjoyment of the blessings of health to his happy and benevolent agency.

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas; Inflammations, of the Brain, throat, stomach, lungs, liver, intestines, kidneys and bladder; pains in the stomach, back and side; consumption, dropsy of the head, of the chest, of the abdomen and of the limbs, scrofula, scurvy and syphilis; cancer, gravel, loss of appetite; sick headache, rheumatism; both acute and chronic, spitting of blood, diarrhœa, dysentery and colics; syncope, apoplexy and paralysis, dyspepsia, hypochondriasis, epilepsy, hooping cough, Palpitation of the heart; ulcers and sores of every description; hysterics; weak nerves, and low spirits, suppression, and other delicate Female Complaints.

No other medicines ever discovered has grappled these horrid forms of disease with such general success. They derive thus powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE. The bowels of the earth have not been ransacked for poisonous minerals to affect the system under the pretence of eradicating disease. The Field and the Forest alone have been searched for materials for the healing art. From these have been collected, remedies attacking the various forms of disease, and expelling it by the outlets provided by the author of our Being—the Lungs, the Skin, the Kidneys and the Bowels. Hence Wright's Indian Vegetable Pills, bodily upon the curative mode suggested by nature, are Sudorific, Diuretic, Expectorant and Purgative.

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect. The nearer we approach to nature, in our researches after truth both in science and art the more complete will be our success in both. Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North, or to the rain, heat, and pestilential miasma of Southern climate. Houseless, unprotected, exposed to every atmospheric change, every extreme of the seasons, dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man, who enjoys all the comforts of civilization, with its attendant arts, is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions—How does this happen? Simply because, bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bountifully provided for the solace of suffering, and the mitigation and cure of disease—sowing them broadcast on every hill and valley. Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man, and study the secrets of nature, and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one.*

Disease rarely assumes one form from another, even so any one case—hence the absurdity of attacking it by one uncompounded medicine. But Wright's Indian Vegetable Pills combining a remedy for every form of disease, attacks successfully any combination of maladies. This union of powers under these pills thorough cleansing in their nature and operations. They cannot fail of affording relief if taken according to directions accompanying them. They may be freely resorted to in the most desperate cases of the most desperate disorders, for they have effected remarkable and marvellous cures. They are applicable to a wide range of diseases and their use is not confined to any particular age, or the sex or sect. They are now triumphantly established beyond the reach of cavil and the only danger that exists is on the part of the public, lest they should suffer from imitations, spurious Pills, palmed off by the help of titles similar to that of the genuine Pills. Therefore, we once more caution the public against purchasing any but the

GENUINE

"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills, as we before remarked, operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase, 'a new man;' whether the disease is INCIPIENT CONSUMPTION, which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friendly ear; or Cutaneous, showing itself upon the skin in eruptions or blotches; whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger. Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease.

The *perfect safety* of the medicine is another all important quality, and one which has contributed more than any thing else to its extension and popularity.

In a word, this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long, ALMOST UNIVERSAL.

BY THE QUEEN'S PATENT.

TRIUMPHANT SUCCESS

OF

BUCHAN'S HUNGARIAN BALSAM.

THE GREAT ENGLISH REMEDY FOR

CONSUMPTION!

THE great and only REMEDY for Colds, Coughs, Asthma, and CONSUMPTION, is the *HUNGARIAN BALSAM OF LIFE*, discovered by the celebrated Dr Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this Medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as CONFIRMED AND INCURABLE. The Hungarian Balsam has cured and will cure, the *most desperate cases*. It is no quack nostrum, but a standard English Medicine of known and established efficacy.

INCONTESTIBLE PROOFS.

Of the efficacy of this Balsam in the worst forms of Consumption.

From Dr. Storer of Saco, Me.

DR. BRADLEE—Dear Sir: The Hungarian Balsam is, beyond all question a most perfect and admirable preparation, for Diseases of the Lungs. I have used it in my family, and in my professional practice, for more than two years, with the most uniform and entire success, in cases of severe Pulmonary Disease; and I can therefore confidently recommend it to all who are afflicted, as the most certain remedy for such diseases with which I am acquainted.

Yours Respectfully,

FREDERICK T. STORER, M. D.

Saco, May 29, 1845.

Valuable evidence from David Bugbee, Esq. Bangor.

BANGOR, Sept 16, 1844.

DR BRADLEE—Dear Sir—At your request I send you a report of my success as General Agent for the Hungarian Balsam. I have now had the Agency of that excellent medicine about two years, and have sold in that period, nearly twelve gross, or 1728 bottles. Much of this has been used in the vicinity of *Bangor*, but many dozens have been sent several hundred miles to Houlton and the Provinces, to Machias, Eastport, &c. The success of this Balsam in the relief and cure of Pulmonary diseases is absolutely astonishing. Hundreds I am sure, have been saved from a premature grave by this medicine—invalids supposed to be past all hope, have been restored to comparative health; and the last moments of the dying have been made comfortable by its use. In cases of children afflicted with severe and obstinate coughs, it has been employed with great success—several instances of this have come under my personal knowledge. Indeed this is a g and medicine. Its reputation is established here, and the sales are constantly increasing.

Yours truly,

DAVID BUGBEE.

Another Life Saved.

BATH, Me. Feb. 24, 1845.

DR BRADLEE—Dear Sir: I take much pleasure in giving you a statement of the beneficial effects of Buchan's Hungarian Balsam, on my daughter, who had been for a number of years afflicted with a bad cough, pain in the side, raising of blood, and all those pains and troubles which attend that insidious disease, Consumption. I employed a physician who attended her a long time at great expense, and then advised the consultation of a celebrated physician in a neighboring town at still greater expense and after a number of visits from the advising physician, and the continuance, for some time of the family physician he declared he could do no more for her. He had done all that he could, and I could see no benefit from it. I then employed a Botanic Physician for some time who seemed to do her some good, but did not reach the root of the disease. I was then advised by a friend to try BUCHAN'S HUNGARIAN BALSAM. I have used six bottles with a most astonishing effect. It has restored her strength, cured her entirely of her cough and pain in the side, and she is now attending to her accustomed duties. This may seem wonderful but it is no more strange than true, and I would advise all who have symptoms of consumption to take this medicine in season, and not wait till all hope is past, although this case has terminated so fortunately. In this case I paid between one and two hundred dollars for physicians and medicine without any satisfactory benefit while six dollars worth of the HUNGARIAN BALSAM has removed the disease, restored the strength and brought on a healthy action of the system. Try it for yourselves and you will find the one half has not been told. You can use this letter as you think best and it will do most good—and wishing that your medicine may benefit many as much as my daughter.

I remain gratefully yours, JNO. YOUNG.

P. S. I would say further that about five years ago my daughter commenced raising blood which continued at times for three years, and sometimes very bad, till about two years when she commenced taking this Balsam. The first bottle stopped the raising of blood entirely and she has never been troubled with it since.

From J. E. Ladd, Apothecary, Augusta.

AUGUSTA, Me. May 27, 1845.

DR. BRADLEE—Dear Sir! Having sold the Hungarian Balsam of Life for two years past and having personally observed its beneficial effects in many cases of lung complaints and some of them very severe, I do not hesitate to recommend it as an excellent preparation for those diseases for which it is recommended.

Very respectfully, &c. J. E. LADD.

GREAT CURE AT AUGUSTA, ME.

AUGUSTA, May 27, 1845.

DR BRADLEE—Dear Sir: I can truly say that the Hungarian Balsam has been of the most infinite service to me. I have been cured of an affection of the lungs which was thought to be INCURABLE by all my friends, by the use of a few bottles. One of my children was also restored to health after being pronounced beyond the reach of medical aid by the physicians; and this bow my constant resort in case of any difficulty in the throat and lungs. I have recommended this Balsam to a great many persons and shall continue to do so, as I believe it to be the best thing in the world for diseases of the lungs.

Yours, truly, FRANCIS L WEEKS.

From Edward Mason, Druggist, Portland, &c.

PORTLAND, Me. April 17, 1845.

DR. BRADLEE—Dear Sir: The Hungarian Balsam gives good satisfaction in this city and vicinity, and I have no doubt from the reports I hear of its salutary effects upon invalids, that it is an excellent preparation for diseases of the lungs.

EDWARD MASON, Apothecary, 52 Middle street.

HEAR THE PRESS.

From the Christian Observer, March 2, 1845.

The public may place the utmost reliance upon the statements respecting the Hungarian Balsam, by Dr. Bradlee the American Agent, who is an old and highly respectable citizen of Boston, a member of a christian church, and a man who would not for any consideration, give his influence in favor of any sort of deception or imposture.

From the Transcript.

If any thing could reconcile us to a departure from commonsense principles, in the treatment of disease, it would be the extraordinary reputation of a medicine, like the Hungarian Balsam, which we believe both from careful analysis and the statement of the inventor, to be a purely vegetable compound. The effect of this medicine in cases of Consumption, is sometimes truly astonishing.

☞Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emanciption and General Debility, Asthma, Influenza, Hooping Cough, and Croup.

☞Sold in large bottles at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the Agents, gratuitously.

1845.

NATHANIEL JOHNSON,

WHOLESALE AND RETAIL DEALER IN

Hot Air Furnaces, Cooking Ranges, Stoves, Fire Frames, Copper and Tin Ware, &c.

HAS just received a new supply of FOX'S PATENT

HOT-AIR FURNACES,

Being a decided improvement upon every other heretofore in use. This furnace is designed for heating public buildings, factories, dwelling houses, &c. and is recommended for safety from fire, economy of fuel and purity of air produced by it. This article is the very best in the market and is warranted to be such.

Stimpson's Hot Air Cooking Range.

THE VERY BEST EVER MADE!

N. J. has also received a supply of STIMPSON'S NEW PATENT RADIATING AND HOT-AIR COOKING RANGE, for coal or wood. This Range took the silver medal in New York and Boston at the Fairs, and is the best in use having been greatly improved since its first invention many years since, and now they are offered of entire new patterns. The improvements made cause it to bake more readily, and with much less fuel and the oven is much wider, and there can be attached to this Range a Bath Boiler and Apparatus, and Summer Damper, which allows the extra heat, gas and steam to pass off into the chimney, without passing into the Hot Air Chamber, as is the case in some other Ranges. By means of the Radiator, which consists of a hollow mantel and sides, through which the smoke and gas are made to pass and return again to the oven, the temperature of the room may be increased or diminished, at pleasure.

The above RANGES are manufactured of various sizes for families, boarding houses and hotels. By the Regulator which controls all the flues, the draught of the chimney may be regulated at pleasure so as to prevent the waste of coal. This has been found very useful, and has been added to many of the Ranges formerly set, and the persons who use them say they use one half less coal than former. The Hot Air Fixtures which have been used for many years, but now improved and so arranged as to prevent the possibility of the gas and smell of the kitchen from getting into the Air Chambers, are added when desired, and afford the means of heating an additional room with the same fire used in cooking.

As a further recommendation of the above Furnace and Cooking Range, the subscriber has permission to refer to the following gentlemen who are well known in Bangor and throughout the State, and who have recently had them put up at their residences:—Abner Taylor, Esq.—Gen. Samuel Veazie—Albert Emerson, Esq.—Isaac Farrar, Esq.—Nathaniel Lord, Esq.—Rufus Dwinal, Esq.—James Crosby, Esq.—Geo. W. Pickering, Esq. and a number of others in Bangor, together with six hundred in Boston, New York and other places, whose names can be seen by calling on the subscriber.

N. J. has also for sale as above,

500 STOVES

of all kinds and prices, which he will sell very low for cash—in other words, at *great bargains*. His assortment comprises those of the most approved and latest patterns, together with a few of less modern patterns which will be sold at cost.

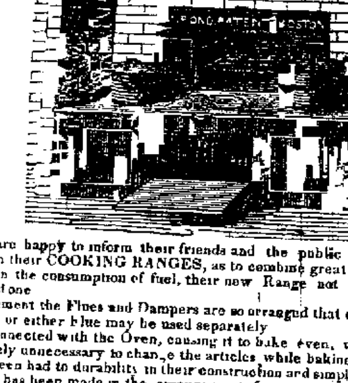

Please call and see—seeing is believing.

Pond's Improved Range—1845.

BEST RANGE EVER MADE.

THE subscribers are happy to inform their friends and the public that they have recently made such improvements in their COOKING RANGES, as to combine great perfection in their operation with more economy in the consumption of fuel, their new Range not requiring more than two thirds as much fuel as the old one.

In our new improvement the Flues and Dampers are so arranged that each Flue will draw well with all the Dampers open or either Flue may be used separately.

All the Flues are connected with the Oven, causing it to bake even, with a small quantity of fuel, and rendering it entirely unnecessary to change the articles while baking. Our patterns are entirely new and regard has been had to durability in their construction and simplicity in their use.

A great alteration has been made in the arrangement for warming additional rooms, affording a much larger quantity of Hot Air than could be obtained by the former method, and so arranged as to entirely prevent the air being rendered impure by the gas from the coal or the smell from cooking.

After more than twenty years experience in the manufacture of various kinds of Cooking Apparatus, we believe we now offer to the public a Range superior to any heretofore used—and *which we will warrant them to give entire satisfaction*.

The above Ranges are manufactured of various sizes and for sale at No. 20 Merchant's Row, Boston.

MOSES POND & CO.

The subscribers are happy to inform their friends and the public that they have been appointed agents for the sale of the above Ranges and have one now set and in operation at their store, and will be pleased to exhibit to the citizens of Bangor and vicinity. They also have on hand all of the most approved patterns of Cooking and Parlor Stoves, low for cash.

CITY OF BANGOR.

In Board of Aldermen,
Sept 2, 1845.

ON the report of the Street Engineers in laying out Hancock road agreeably to the order of the city council passed June 30 1845 the Engineers are directed to lay out anew that part of the road from Kenduskeag stream to Essex street so as to conform to the north line of the Widow Sargent's farm. This order passed in concurrence by the Common Council.

AGREEABLY to the above order the Street Engineers of the city of Bangor give notice to all persons interested that they will on FRIDAY the 26th day of Sept. inst. at 9 o'clock A. M. proceed to lay out said street, commencing on Kenduskeag Stream.

Immediately after the laying out they will meet at the Aldermen's Room to hear all persons interested in the premises over which the road is to be laid out and consider all claims for damages.

The Special Election.

The special election or Representatives yesterday passed off quite tamely. The Whigs neglected their duty in a greater degree than they ever should again, especially while the Whigs in other representative districts were no choice was effected at the annual election, have struggled so manfully in order to get as many representatives into the House as possible. The Whigs of Bangor ought not to have stood coldly by and see others hard at work, and they make no effort to do their part. Had there been only a decent, a merely moderate turn out of the Whigs they would have chosen their representatives, and had that work finished. By staying at home no choice has been effected.

The following table gives the result of the balloting in the seven Wards:

	Whigs.		Locos.			Abl.		Scatter'g
	Ballots	Paine.	Dale.	True.	Stone.	Drummond.	Curtis.	
Ward 1,	166	34	38	28	23	39	29	8
" 2,	109	50	56	24	24	29	22	9
" 3,	159	56	81	35	34	50	44	8
" 4,	106	49	52	25	25	27	26	3
" 5,	168	73	73	43	44	37	33	10
" 6,	129	65	55	22	28	27	30	1
" 7,	87	27	27	36	35	23	23	1
	858	354	382	213	219	221	213	48

This result shows that Mr Paine lacks seventy five votes, and Mr Dale forty seven votes of a majority. This might easily have been remedied, but then it is a nett whig gain of fifty votes from the late trial, and only at the same ratio the whigs can soon elect their candidates. We think it should have some influence with them to be out at the next trial and elect their men when they see an amalgamation attempted by the leaders of the 'Liberty party.'

☞ The annual Fruit Supper of the Mechanic Association at the opening of their regular meetings for the season, will take place at their Hall to-morrow evening. Arrangements have been made for a pleasant social occasion. Every member of the Association, with his wife or female friend is expected to be present, and the number who have signified their wish to be present makes it necessary for the committee of arrangements to give notice that it will be impracticable to admit children into the Hall. It is believed that this entertainment will be much more brilliant than any of the preceding, and it is hoped there will be a very general attendance of the members and their wives, or their female friends.

Those who wish to contribute towards the decoration of the Hall or the tables by the gift of wreaths, boquets and flowers, are invited to do so during the day to-morrow—the earlier they are sent in the better. It would be pleasant too for as many of the good women to be present in the afternoon to-morrow as can make it convenient in order to complete the decorations.

It is expected there will be a talk all round interspersed with good music, original songs and other matters fitting a social gathering of the Association. Let every member be at the meeting with his mate.

Oberlin College—Ohio.

A late number of the Cleaveland Herald gives a highly interesting account of this College from which we learn that it is emphatically the Peoples' College, and although some of its leading characteristics are peculiar to the institution and at variance with the general public opinion and prejudices, the College exerts a wide and healthful influence. It places a useful and thoroughly practical education within the reach of indigent and industrious young men and women, as well as those in affluent circumstances. The course of training and studies pursued there, appears admirably calculated to rear up a class of healthy, useful, self-educated and self-relying men and women—a class which the poor man's son and daughter may enter on equal terms with others, with an opportunity to outstrip in the race, as they often do. It is the only College in the United States where females enjoy the privileges of males in acquiring an education and where Degrees are conferred on women, and this peculiar feature of the institution has proved highly useful. By combining manual labor with study the physical system keeps pace with the mind in strength and development, and the result in most cases is "sound minds in healthy bodies." Labor and attention to household duties are made familiar and honorable.

☞ The Bey of Tunis has sent to Mr Horace H. Day, of New York, a heavy snuff-box, of pure gold, set with numerous diamonds, as an acknowledgement of Mr Day's attention in sending to his Highness, two or three years ago, several articles of India Rubber manufacture, particularly a portable India Rubber Boat, a pair of Corrugated Boots and Breeches, and an India Rubber vessel to be used in transporting water upon the backs of camels, in the place of goat skins. The Bey's splendid present (which is said to be intrinsically worth not less than $500) was forwarded by our Consul at Tunis, Mr Paine.

☞ It is reported that on the arrival of the passengers at Castine from the wreck of the steam ship Bangor, after her destruction by fire, that the second officer of a ship invited a portion of the passengers to occupy the cabin of his ship for the night. The invitation was gladly accepted, and every accommodation afforded them by the gentlemanly and obliging officer. His kindness was repaid by a portion of those who were thus hospitably treated devoting the night to the robbery of his state-room, and consuming his private stores laid in for cases of sickness and for special occasions!

We understand that these men hail from Bangor, but it can hardly be possible that such base rascals are Bangoreans, if they live here they ought to be exposed, as such conduct deserves the withering scorn of every right minded man.

☞ A special meeting of Rising Virtue Lodge of Masons will be held this evening for labor.

From Africa.

The brig Margaret Ann, arrived at New York from Lobango, brings intelligence that about the first of June the brig Henry, Capt. Schultz, of and from Salem, Mass. was boarded by boats from the Portuguese man-of-war barque Relampazo, the officers of which demanded Captain Schultz's papers.

They then asked permission to go below and overhaul the cargo, which Capt. S. refused to allow them. The Portuguese officers then called their boats' crews on board, the Captain of the Margaret Ann was seized and placed in charge of sentinels with fixed bayonets. The Portuguese crew then took the long boat off the chocks, went below and after searching the vessel allowed her to proceed.

Capt. S. also reports that the British man-of-war brig Cygnet, cruising off the Carribean Islands, sends her boats into the harbor, lands her crew and allows them to rob the negroes of their fruit, monkies, parrots, &c. and commit outrages on the female portion of the race.

Captain Hendrickson of the brig Margaret Ann, died while on the coast of Africa.

☞ The New Orleans Courier announces an improvement on Morse's Telegraph, which is about to be patented by the inventor, Mr A. Carbonel. By adding to the metallic wire of the principal line to one or more branches of the same metal, even though these branches form sinuosities like those of railroads, the same results will be obtained at all the different stations with equal celerity and exactness, that are now obtained on the principal line. The same results will be obtained in transmitting signals from one branch to another.

☞ The Boston Advertiser has information from Rio Janeiro that Mr Everett, who arrived there in the U. S. ship Columbus, from New York, had suffered severely from illness during the voyage, and on his first arrival thought it might be prudent to embrace the opportunity which was presented, of returning to the United States. But after some days delay, he found himself so far improved as to decide him to proceed on his voyage to China. He was not so unwell as to be confined to his apartment, but was able to visit various parts of the splendid capitals of the Brazils.

☞ It most unfortunately happened on Saturday last that a paragraph was omitted in making up the paper, acknowledging the receipt of late English papers by Jerome & Co's Express, and by Mr Spear, clerk of the Charter Oak. We always like to give credit for such favors, and that was a special occasion and enabled us to give our readers a large amount of interesting news in a short time after its reception in Boston;—Gentlemen, your kindnesses are daguereotyped on our heart.

☞ The United States Journal says that there are in Washington city more petty distinctions, and upstart imitations of foreign aristocracy, more ridiculous airs and empty foppishness, than could be described in a life-time. The divisions into castes, classes, and artificial distinctions, are so *infinitesimal*, that the scrupulous and fastidious find the utmost difficulty in ascertaining the precise line of division between the respectable and disrespectable class.

Welcome to Edward Everett.

At a large meeting of the Merchants and others of Boston held yesterday a large committee was appointed to confer with Mr. Everett, and tender him a public dinner or some other public manifestation of regard, which might be equally agreeable, in behalf of the citizens of Boston. A Committee of Arrangements was chosen to carry into execution such proffered demonstrations of esteem.

A mob, made up of a very miscellaneous assortment of firemen, blacks, whites, and other fancy colored rowdies, made matters hideous at Nantucket on Saturday afternoon last—made an assault on Temperance Hall, the Citizen's Bank and other buildings, smashed in windows and other evils and enormities then and there committed. Among other feats they ripped up about a thousand feet of hose, pipe, &c.

☞ The steam tow boat recently constructed here will get up steam to-morrow, for an experimental trip, to try her machinery. She will probably make a trip down river the last of this, or the first of next week. She is expected to be a powerful boat, and will be able to take pleasure parties down the river in fine style.

William C. Preston.

The Charleston Courier says that at the last advices Col. Preston was lying dangerously ill of congestive fever, at the residence of his family, in Abingdon, Virginia, and that there was great reason to fear that his mortal remains, would soon be entombed in his native State

Launched.

A fine barque, called the ACADIA, was launched from the yard of Milliken & Flagg in Surry, on the 20th inst. The 'Acadia' is of a beautiful model, copper fastened, and measures about 230 tons. She is owned by Mr Henry J. Flagg, and Capt. Thomas A. Harlow of this city, and is to be commanded by Capt. Harlow.

Disaster.

☞ In the Democrat of this morning we find the following interesting article, and we cannot but hope that the enterprise will be successful, and that the public in this part of the State may reap greater advantages than they have heretofore done from their natural resources for internal navigation. A little at the right sort of State encouragement would have made some of these resources available a years ago. Better late than never, and we shall be glad to see individual enterprise prove successful in this matter.

Steamboat at Oldtown.

We understand the Messrs. Moor of Waterville have been exploring the Penobscot river between Oldtown and Mattawamkeag Point, for purposes of navigation, and that the examination proves highly satisfactory. The river is easily navigable for a steamer of light draught, similar to those now running between Augusta and Waterville, quite to the mouth of the Piscataquis river at Howland. The only obstruction is in the falls just below the mouth of the Passadumkeag stream. These falls can be passed by a canal with a lock at its foot for the construction of which upon the eastern side the land is most favorable. We expect by another season that a boat of suitable construction and size will be placed upon this route.

The Piscataquis falls at Howland and the falls at Lincoln, can both be rendered passable, and we have no doubt will be another season—so the boats can go quite to Mattawamkeag. The advantage of such a means for transporting passengers and merchandise can hardly be over-estimated. The carrying of goods over the State and Military road from Bangor to Houlton, is already immense and is every year increasing.—The principal proportions are carried in the autumn, upon teams drawn by four and six horses, and the road, which is laid over the first land that borders the eastern side of the river, a cut up so as to be almost impassible, and the towns through which it passes are annually subjected to great expense for repairs. A steamboat upon the river between the months of April and November would afford easier, cheaper, and speedier transmission of goods to Mattawamkeag, the route would be kept in good repair at a moderate cost, and the convenience and benefit of the public be greatly promoted. Mattawamkeag might become the head of river navigation, and the depot for merchandise and supplies intended for the whole northeast section of the State bordering upon the Penobscot waters and upon the St. John and its tributaries.

We hope for the success of this enterprise, and believe that the liberal and enterprising residents on the Penobscot river will do all in their power to hasten its completion.

From Aransas.

A schooner arrived at N Orleans on the 11th which left Aransas on the 6th inst. Every thing was quiet at Corpus Christ when she left, and the health of the troops remained good The United States brig Lawrence was still at anchor outside of Aransas bar, and would sail for N O. in a few days.

Another Fossil Monster.

It is stated in a late number of the Madison Banner, "on the most reliable authority", that a person in Franklin county, Tenn., while digging a well a few weeks since, found a human skeleton, at the depth of fifty feet, which measures eighteen feet in length The immense frame was entire with an unimportant exception in one of the extremities. It has been visited by several of the principal members of the Medical Faculty in Nashville, and pronounced unequivocally, by all, the skeleton of a huge man.

Power will intoxicate the best hearts, as wine the strongest heads. No man is wise enough, nor good enough to be trusted with unlimited power, for whatever qualification he may have evinced to entitle him to the possession of so dangerous a privilege, yet when possessed, others can no longer answer for him, because he can not answer for himself.

Be careful then dost not speak a lie in thy prayers, which, though not observed, is frequently practised by careless persons, especially in the times of confession; affirming things which they have not thought, professing sorrow which is not, making a vow they mean not.

Claudine, the Forsaken:

Or the Peasant Girl of Lusanne.

There was a nameless change come o'er that face,
A fading off of beauty and of grace:
Like a sad spirit on some haunted ground,
She glides with melancholy step around,
Fain would she wish her usual tasks employ
The hours devoted to a dreamy joy;
Fain would she, while apart and sad she stands,
Ply the quick needle with those listless hands;
But with that needle's point she only traces
A name, which soon the falling tear effaces!
Silent sun sits—a little space apart,
Brooding o'er thoughts deep treasur'd in her heart

I was proceeding leisurely along the vine and flower-banked road leading to Lusanne and within a trifling distance of it, when my attention was attracted by the pale and care-worn figure of a young girl, who, apparently overcome and exhausted by exertion, had fallen to the ground, whereupon a boy, of about ten years of age, was attempting to raise her; but the strength of the little fellow was not equal to the task, and, as I approached, he turned his eye towards me imploringly, and without saying word made a most powerful appeal to my compassion. The little fellow was too timid to ask for assistance, and I needed not the asking, for observing the condition of the poor girl, I ran toward her, and in another moment she was again upon her feet, and leaning upon the shoulder of the boy, too feeble a prop to support her. The girl thanked me as well as she was able, and the boy also added that Heaven had sent me to save his sister from perishing on the highway. 'Oh,' said he, and his eyes sparkling with gratitude, 'poor Claudine would have died but for you!'

'Will Claudine accept of my assistance, in conducting her into the town,' said I, adding, 'Lean upon me, my poor girl, I am better able to support your fragile form.'

Claudine murmured her thanks, and accepting of my proffered service, we entered Lusanne together.

The boy conducted us to a small but neat cottage where he stopped, and observed this is our home, sir,' and then calling for his parents, two happy and generous looking creatures came out and with tears and out-cries embraced their dying child, and led her into the cottage. They were all too much occupied with themselves to heed me, and as I did not wish to be overwhelmed with their gratitude, I silently glided away.

'Alas!' I exclaimed mentally, 'there is life in all its mingled brilliancy and gloom. Happy parents, miserable child!' There was something in the demeanor of the girl that led me to believe that she was the victim of unrequited affection. I don't know what it was, but I could not dispossess myself of the notion; and it gave rise to a train of reflections which continued to occupy my mind until I arrived at my inn.

As I passed the house with Claudine upon my arm, I had noticed my good hostess looking out upon us; so, when I entered, I made enquiry for the good woman of the inn and when she came, asked of her whether she could give me any information concerning the girl she had seen me with.

'No,' said the hostess, 'but I believe her name's Claudine, and that her parents are poor but creditable people enough.'

'And what is the occasion of Claudine's illness?'

'Oh, some love stuff, I believe,' replied mine hostess, in such a tone and with such an air that had I been more curious about Claudine's history than I was, I would not for all the world have heard it from such lips. They seemed dalized humanity.

'Go thy ways, my good woman,' said I, and the good woman, who seemed only to require a hint to turn her back, departed with alacrity.

'So! Claudine's Love's victim! The spoiler perhaps had a desolate heart and soul! 'Tis melancholy to see blighted love in halls of state, but deeper, much deeper is the grief when the object is of the lowly, who, having not the means to mingle in the world's gayeties, and seek consolation in the thousand pleasures that are to be purchased by those who can afford to buy, look for gratification only in the fields and groves, among birds and flowers and trickling rills, wherein nature stands revealed in her pure glory, and whose voice makes the sad heart sadder, because of her own perfect purity, against which the grossness of the best of mortal clay shows vilely.

I was desirous of knowing more of Claudine, but I would not hear it from my hostess. I could not endure to hear human misery turned into a jest, and the finest feelings of humanity ridiculed by one who evidently never possessed them, and was not able to appreciate them.

In the course of the following day, I rambled again about the spot where I had seen Claudine; but Claudine came not. My hopes were all in vain, and I returned toward my inn. Within a short distance of the town, however, I perceived the girl's brother turn from a narrow pathway into the road before me. I hailed him and the little fellow ran toward me, and with tears in his eyes exclaimed, 'Oh, sir, why did you go away last night; we all wanted to thank you for what you had done for our poor Claudine.'

'Indeed, my little friend,' said I, 'my hope is already rewarded for any service I may have rendered. But how is Claudine?'

'Oh, very bad, sir, very bad. We do not think she will ever rise from her bed again—She can take no nourishment, and is very restless unless our parents are at her side, blessing and forgiving her, and supplicating heaven's mercy!'

'She is unhappy, then?'

'Oh, yes, sir; all her illness was through a Frederic.'

'And who is Mr. Frederic?'

'Oh, he is now the owner of the estate our cottage stands upon; but he was not so once; when his uncle lived he was plain Frederic, and every body says that a better lad had never lived. He courted Claudine, sir.'

And having betrayed her, scorns her! God of heaven! what beings there are wearing the likeness!

'When his uncle died,' continued the boy, 'everybody thought he would have married Claudine, but he became acquainted with rich people, and they drew him from our humble cottage, and then he left the place, without even a farewell to poor sister; and now she is dying.

There was a history in the boy's few words, a history of honest unsuspecting love, and cruel treachery. Oh, that man can be so infamous as to blight the fairest of life's flowers, and turn the warm and innocent heart into a gloomy sepulchre! Can there be thought——can there be feeling——can there be soul in him who thus makes the heart desolate and despairing? The victim, once innocent, and once happy, o'erpowered by misery, yeilds her breath and dies and he, the betrayer——her destroyer, flourishes! But whither does his career lead him! Life is only a span, and though the wicked triumph therein, their triumph is but for the moment—the reward of the sufferer is eternal!

I felt an inclination to see Claudine once more. I was anxious about her fate, and that she should have proper attendance. As the boy repeated his expression of sorrow that I had gone away so suddenly on the previous evening, I promised him that I would call again on the following day. 'Oh will you,' said the little fellow. 'We shall be so pleased to see you.—And I know it will give Claudine pleasure too.

PURIFY THE BLOOD.

MOFFAT'S

VEGETABLE LIFE PILLS

AND

PHŒNIX BITTERS.

The high and varied celebrity which these pre-eminent Medicines have acquired for their invariable efficacy in all the diseases which they profess to cure, has rendered the usual practice of puffing not only unnecessary but unworthy of them. They are known by their fruits; their good works testify for them, and they thrive not by the faith of the credulous.

IN ALL CASES

OF ASTHMA, ACUTE and CHRONIC RHEUMATISM, AFFECTIONS of the BLADDER and KIDNEYS

BILIOUS FEVERS & LIVER COMPLAINTS.—In the south and west, where those diseases prevail, they will be found invaluable. Planters, farmers, and others, who make use these Medicines, will never afterwards be without them.

BILIOUS CHOLIC, and SERIOUS LOOSENESS, PILES, COSTIVENESS, COLDS & COUGHS *CHOLIC,* CONSUMPTION. Used with great success in this disease.

CORRUPT HUMORS, DROPSIES,

DYSPEPSIA. No person with this distressing disease, should delay using these medicines immediately.

ERUPTIONS of the Skin, ERYSIPELAS, FLATULENCY,

FEVER and AGUE. For the scourge of the western country these medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

FOULNESS of COMPLEXION

GENERAL DEBILITY,

GOUT, GIDDINESS, GRAVEL, HEADACHES, of every kind, INWARD FEVER, INFLAMMATORY RHEUMATISM, IMPURE BLOOD, JAUNDICE, LOSS of APPETITE,

LIVER COMPLAINTS,

LEPROSY, LOOSENESS,

MERCURIAL DISEASES.—Never fails to eradicate entirely all the effects of Mercury infinitely sooner, than the most powerful preparation of Sarsaparilla.

NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, ORGANIC AFFECTIONS, PALPITATION of the HEART, PAINTER'S COLIC,

PILES. The original proprietor of these medicines was cured of Piles of 35 years standing by the use of these Life Medicines alone.

PAINS in the head, side, back, limbs, joints and organs.

RHEUMATISM. Those afflicted with this terrible disease, will be sure of relief by the Life medicines.

RUSH of BLOOD to the HEAD, *SCURVY, SALTRHEUM, SWELLINGS,*

SCROFULA, or KING'S EVIL, in its worst forms, *ULCERS, of every description.*

WORMS, of all kinds, are effectually expelled by these Medicines. Parents will do well to administer them whenever their existence is suspected. Relief will be certain.

THE LIFE PILLS AND PHŒNIX BITTERS PURIFY THE BLOOD,

And thus remove all disease from the system.

A single trial will place the LIFE PILLS and PHŒNIX BITTERS beyond the reach of competition in the estimation of every patient.

The genuine of these medicines are now put up in white wrappers and labels, together with a pamphlet, called "Moffat's Good Samaritan," containing the directions, &c., on which is a drawing of Broadway from Wall street to one Office, by which strangers visiting the city can very easily find us. The wrappers and Samaritans are copyrighted, therefore those who procure them with white wrappers can be assured that they are genuine. Be careful, and do not buy those with yellow wrappers; but if you do, be satisfied that they come direct from us, or dont touch them.
